

ISO 45001: 2018 INTERNAL AUDITOR

This two day ISO 45001 internal auditor training course for occupational health & safety (OH&S) management systems is designed to provide delegates with the knowledge and skills to plan, conduct, report and follow up an OH&S audit based upon ISO 45001. Through a combination of interactive tutorials, workshops, photo site tour, case studies and simulated audits, this ISO 45001 internal auditor course teaches delegates how to go beyond just compliance, to assessing the effectiveness of a process and identifying opportunities for business improvement.

After completion of this 2-day course delegates will be able to support an organisation to:

- Ensuring that the system is in conformance with ISO 45001:2018
- Managing the effectiveness of the documented system and efficiency of the Occupational Health and Safety Performance and Culture
- Identifying opportunities for process and health and safety improvements
- Identifying and managing of legal compliance

KEY TOPICS INCLUDE:

- Background to OH&S management systems auditing
- OH&S hazards
- Audit performance, including:
 - Audit planning, including determining frequency
 - Audit preparation, scope, and checklists
 - Audit techniques, questioning skills, opening meetings, collecting objective evidence and verification.
 - Non-conformances, reporting and corrective action
 - Closing meeting
- Audit discussion and summary
